Genes gained in Geoplanidae CC TreeMap

Genes gained in Geoplanidae CC TreeMap							
		ivision ite	condensed	condense chromosol centrome	me, chro	mosomal egion	Smc5-Smc6
gap juncti ce!! pole		ore-type spore	chromosome	region		Ī	
		nal cell embrane	kinetochore	chromosome centromerio chromos	I DASH		centromeric
	extracellular space	BLOC-1 complex		monopolin complex		ule kinetocho	nucleus
	sperm principal piece	prospore membrane	Mis6-Sim4 complex	condensed nuclear chromosom	Mre11 comple microtube	X ligase complex ule PcG protein	spliceosome
	cell cortex	extracellular matrix	viral tegument		endoribonuclease complex	viral nucleocapsid	SAM complex
	cell tip	extracellular region		virion compo		Cul4-RING E3 ubiquitin gase complex viral	mitochondrial outer membrane
	cell pole	mating projection tip	SUMO ligase complex	EKC/KEOPS complex	virion component	viral	secretory granule cytoplasmic vesicle
	medial cortex	cortex of	host intracellular part	host cell nuclear inner membrane	host cell part	host cell	acrosomal vesicle
	mating projection		host cell	host cell p membrane	artst cellula componen	Cytopiasiii	cytoplasmic vesicle lumen secretory
	symplast	external side of plasma membrane	nucleus	host cell cytoplasm	host cell mitochondric	host cell plasma membrane	granule lumen vesicle lumen
