Genes gained in ECRY2 CC TreeMap

voltage-gated potassium channel complex	neuronal cell body membrane			dendrite membrane		axon	
plasma membrane					cell body		
voltage–gated sodium channel complex				vacuolar proton–transporting V–type ATPase,	dendrite	gap junction	perikaryon
	synaptic membrane	lateral plasma membrane		V-type ATT ase, V0 domain			
					axon initial segment		
			postsynaptic membrane	actin filament	axen milai eeginen	synapse	cytoplasmic stress granule
	cell body membrane						
					adherens junction	cell body
