Genes gained in Acteonemertidae MF TreeMap

interferon-gamma receptor binding	toxin activity	interleukin–7 receptor binding		protein serine/threonine phosphatase inhibitor activity	
toxin activity	intraciliary transport particle A binding	receptor ligand activity		enzyme inhibitor activity enzyme inhibitor activity	
	steroid binding	fucosyltransferase activity	nitric–oxide synthase activity	ribonucleoside–diphosphate reductase inhibitor activity	cAMP-dependent protein kinase inhibitor activity
	interleukin–1 receptor binding	hormone activity		cAMP-dependent protein kinase regulator activity
