## Genes gained in CYCO1 CC TreeMap

gap junction		clathrin adap	clathrin adaptor complex pla		asma membrane	lysosomal membrane	mitochondrial intermembrane spac	clathrin coat of trans–Golgi e network vesicle
clathrin-coated pit	basal part of cell respiratory chain complex		basolateral plasma membrane		apoplast	trans–Golgi network membrane	endosome late endosome membrane	endosome
	oxidoreductase complex		basal plasma membrane		basal part of cell			late endosome
terminal bouton						mitochondrial respirasome	inner mitochondrial membrane protein complex	acrosomal membrane
