Genes gained in Ellobiida CC TreeMap

host cell endoplasmic reticulum membrane			host cell memb		a in Eliobilda CC Treelviap		sarcop reticulum r	olasmic membrane	acrosomal lumen
host cell cytoplasi		asm			mitochondrion	mitocho	ndrion chloroplast	fungal–type vacuole	storage vacuole
host cell cytoplasm	host ce endoplasi reticulur		host cell nuclear matrix	host cell junction		virion membrane		sperm principal piece	intraciliary transport particle A
host cell nucleus	host cell nuclear part		host cell Golgi apparatus host cell endomembrane system		viral envelope	virion membrane viral tegument		icosahedral viral capsid	spore wall
