Genes gained in Isopoda CC TreeMap

extracellular region	Mre11 c	Mre11 complex		osomal lumen	chromosome, centromeric region		telomere cap complex		host cell membrane	
virion membrane viral envelope	extracellular space extracellular region		prospore membrane		spindle pole body chromo		netochore ntromeric regior	mating-type region heterochromatin	host cell part	ell part host cell
	egg chorion	cel	llular bud	cell division site	meiotic spindle pole body		terochromatin	chromosome, telomeric region	host cellular component	host intracellular region
					chromosomo					hoet call places
	viral tegument		acrosomal vesicle		chromosome, subtelomeric region	pericentric heterochromatin		host intracellular part	host cell plasma membrane
