Genes gained in Tardigrada CC TreeMap

Conce games in rangiage Co meeting											
virion membrane		viral envelope		extracellular region		acrosomal lumen		chromosome, centromeric region			
		membrane		fusome	actin cortical patch fusome		catenin complex	spectrosome chromosomal regi		centriole ion	
	host cell plasma membrane	host cell Golgi membra	ane host cell junction	H3 histone acetyltransferase complex	endocytic patch						
							egg chorion	chromosome, telomeric region			
	host cell cytoplasm	virion component								chromosomal region	
			helical viral capsid	apoplast	external side of plasma membrane		supramolecular complex	condensed chromos centromeric regio
