Genes lost in DRAW1_PELO1_Crassi MF TreeMap

HECT domain binding protein bindin vascular endothelial growth factor binding	hormone activity	cytokine activity	double-stranded telomeric DNA binding	
	calmodulin binding ng	peptide hormone receptor binding	purine-rich negative regulatory element binding bind	S rRNA binding <mark>ding</mark>
	chemokine activity	intraciliary transport particle A binding	translation repressor activity, mRNA regulatory element binding	telomeric DNA binding
	mitogen–activated protein kinase kinase kinase binding	complement component C3b binding	bubble DNA binding	DIVA billuling
