Genes gained in PELO1_Crass CC TreeMap

extracellular region	division septum	ciliary transition zone	pronucleus	X chromosome	sex chromosome
cell cortex of cell tip	intracellular immature spore cell pole	main axon		chromosome meiotic spindle pole body	chromatin
prospore membrane	phagophore assembly site	cell tip	gamma–tubulin complex	Golgi lumen	chromosome
ascospore-type prospore	phagophore assembly site membrane	cell pole	host cell nucleus	host cell cytoplasm	host cell cytoplasm
