Genes lost in RVAR1 CC TreeMap

plasma membrane	cell surface	extrinsic component of cytoplasmic side of plasma membrane	extracellular region			specific granule membrane			
plasma mer	virion membrane	basal plasma membrane	extracellular organelle		l e extracellular			perinuclear endoplasmic reticulum	
external side of plasma membrane	membrane raft	membrane microdomain	extrac	extracellular space					
receptor complex receptor comple		ionotropic glutamate				M band			peroxisomal
	lipopolysaccharide receptor com	plex receptor complex	extracellular vesicle	extracellular membrane-bounded organelle	extracellular organelle		microbody membrane		membrane
			host cell plasma membrane			rhabdomere nction microvillus		host cell Golgi membrane	host cell junction
	SCF ubiquitin ligase complex	outer kinetochore			host cell ju
